

# AMT

Advanced Molecular Technologies  
Est. 2005

 Australian Owned and Operated  Catalogue Products  Competitive Pricing 

### Contract Research

Full time equivalent and other models available

### Catalogue Compounds

>2000 chemicals maintained in stock

### Custom Synthesis

Multi-step and complex synthesis

### Analytical Services

NMR, HPLC, GC, UV-Vis, DSC & more

### Spin-Out Company Support

Proudly supporting emerging Australian start-ups

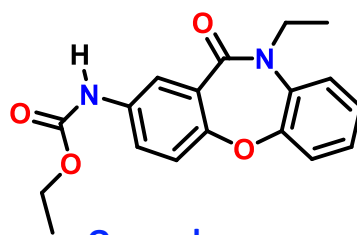

### Co-Development Options

Drug discovery, product development

## Australian Customers Discount

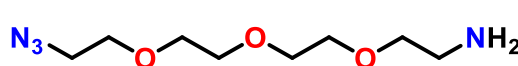

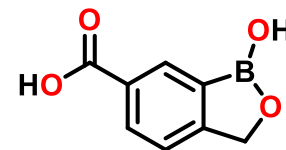

- ❑ All prices in AUD (instead of USD) – discount on international rate (exchange rate of 0.75 equates to **25% discount**)
  - ❑ Free delivery for orders over \$250
- 
- Milligram to kilogram quantities
  - Direct line of communication with our chemists
  - Next day dispatch for all in-stock items when ordered before midday

## Featured Products

**Bioactives**  
(AMTA045)

**Organoborons**  
(AMTB652)

**PEGs**  
(AMTGC125)

## Scaled Organics

Providing your scale-up needs

Established in collaboration with Tri-Tech Chemical

[www.scaledorganics.com](http://www.scaledorganics.com)

 Product Development

 Multi-kilogram Quantities

 Manufacturing Optimisation
